AN ORDINANCE OF THE CITY OF ORLANDO, FLORIDA
AMENDING THE CITY’S ADOPTED GROWTH MANAGEMENT
PLAN BY AMENDING FUTURE LAND USE ELEMENT FIGURE
LU-1 AND ADDING FUTURE LAND USE OVERLAY
DESIGNATIONS TO FIGURE LU-1; CREATING FUTURE LAND
USE ELEMENT SUBAREA POLICIES S.12.7, S.12.8, S.12.9,
S.12.9.1, AND S.33.5; AMENDING FUTURE LAND USE
ELEMENT SUBAREA POLICY S.15.12; AMENDING THE
FUTURE LAND USE MAP TO CHANGE THE FUTURE LAND
USE DESIGNATION OF CERTAIN PROPERTY FROM
PUBLIC/RECREATIONAL/INSTITUTIONAL TO INDUSTRIAL/
RESOURCE PROTECTION, CERTAIN PROPERTY FROM
INDUSTRIAL TO URBAN ACTIVITY CENTER AND
CONSERVATION, AND APPLY THE TRANSIT 1, TRANSIT 2
AND KALEY OVERLAY DESIGNATIONS TO CERTAIN
PROPERTIES; PROVIDING FOR SEVERABILITY AND AN
EFFECTIVE DATE.

WHEREAS, from time to time it becomes necessary for the City to amend its
adopted Growth Management Plan; and

WHEREAS, such amendments are permitted subject to the provisions of Chapter
163 of the Florida Statutes and Rule 9J-11, F.A.C.; and

WHEREAS, the City prepared a South Downtown Vision Plan, based upon
relevant and appropriate data and analysis, which sets forth recommendations for future
development within the South Downtown area; and

WHEREAS, pursuant to the Local Government Comprehensive Planning
Certification Program Agreement between the City of Orlando and the Department of
Community Affairs (DCA), the following amendments to the Growth Management Plan
are exempt from review by the DCA,

NOW THEREFORE, BE IT ORDAINED BY THE CITY COUNCIL OF
THE CITY OF ORLANDO, FLORIDA:

1
SECTION ONE: The Growth Management Plan Future Land Use Element Figure LU-1

is hereby amended to read as follows:

**FIGURE LU-1: STANDARDS FOR FUTURE LAND USE CATEGORIES**

SECTION TWO: The Growth Management Plan is hereby amended to create Future Land Use Subarea Policy S.12.7 which boundaries shall be as set forth in Exhibit “1,” and which shall read as follows:

Policy S.12.7

This Subarea Policy shall apply to all property located within the area generally bound by the East-West Expressway, South Orange Avenue, Michigan Street and I-4 (the “South Downtown Subarea”).

(a) South Downtown Subarea Purpose. This Subarea, known as the South Downtown Area, is intended to be a vibrant, recognizable, mixed-use, multi-modal neighborhood that thrives on the synergies afforded by the continued growth of the Orlando Health campus and adjacent medical-related uses.

(b) South Downtown Vision Plan. To encourage the diverse, efficient and intensive use of land within the South Downtown Subarea, the City prepared a South Downtown Vision Plan (the “Vision Plan”) dated September 2008. The Vision Plan provided recommendations concerning the following:

(1) The potential for locating a unique major attractor (high-value employer, regional attraction, etc.) near the intersection of Kaley Street and Division Avenue to enhance the study area’s main entry point from the west and provide an additional destination in close proximity to the Amtrak/Orlando Health Rail Station;
(2) Parks and open space needed to connect key destinations and neighborhoods and enhance the pedestrian character of the study area;

(3) The potential for workforce housing to complement employment within the study area;

(4) Alternative modes of travel, including transit, bicycle and pedestrian facilities;

(5) Maintenance of existing industrial uses while allowing compatible infill development;

(6) Services and facilities needed to accommodate the projected type and amount of development;

(7) Methods for protecting existing residential neighborhoods; and

(8) Recommended design guidelines.

(c) Special Plan Overlay Zoning. To implement the recommendations of the Vision Plan, the City may adopt one or more Special Plan Overlay zoning designations. Any application for adoption of the Special Plan Overlay zoning designations contemplated under this Subarea policy must include a detailed proposal for funding any public infrastructure needed to accommodate increased densities and intensities.

The Purpose of the Special Plan Overlay zoning designations is to:

(1) Create a sense of place by emphasizing pedestrian scale, active ground floor uses, window transparency, active outdoor open spaces and the principles of “Crime Prevention Through Environmental Design;”

(2) Integrate a mix of land uses by encouraging residences above shops and offices to create a 24 hour a day, 7 day a week community;
(3) **Improve transportation connectivity through improvements to vehicular, pedestrian, transit and bicycle facilities;**

(4) **Encourage the provision of affordable housing in proximity to employment;**

(5) **Preserve the viability of existing industrial uses; and**

(6) **Ensure appropriate and compatible development within the Study Area.**

The Special Plan Overlay zoning designations may:

(1) **Include design guidelines and development standards to encourage a compact urban form, enhance economic vitality and promote social diversity within the Study Area;**

(2) **Allow Residential development as a permitted use in the I-G and I-P zoning districts at a maximum density of 40 dwelling units per acre; and**

(3) **Allow density and intensity bonuses and additional land uses within defined areas, as described in Subarea Policies S.12.8, S.12.9, and S.12.9.1.**

(e) **Public Outreach.** Business and property owners within the South Downtown Subarea are encouraged to participate in discussions regarding area-wide public infrastructure needs and funding alternatives; methods for sharing the cost of public infrastructure improvements; and a comprehensive yet compassionate course of action to deal with the transient and homeless issues within the district.

(f) **Transportation.** To facilitate a balanced transportation system that provides multi-model transportation opportunities, the City shall:
(1) Encourage improvements that establish the Amtrak/Orlando Health transit station as the multi-modal hub of the South Downtown Subarea.

(2) Investigate opportunities to accommodate short distance and high frequency transit service by extending a transit circulator from downtown to locations within the South Downtown Subarea.

(3) Encourage street network connections and linkages that enhance mobility within the South Downtown Subarea and assists in reducing traffic on Orange Avenue.

(g) **Maximum Development Capacity.** The maximum amount of development allowed within the South Downtown Subarea shall be as follows:

<table>
<thead>
<tr>
<th>Land Use Type</th>
<th>Base (2008)</th>

</tbody>
</table>

The maximum amount of any land use type may be increased in conjunction with a simultaneous equivalent reduction in another land use type. Equivalency shall be based on a peak hour trip generation equivalency calculation reviewed and approved by the
City’s Planning Official and Transportation Director. Conformance with the maximum
development capacity allowed under this Subarea policy shall be reviewed annually and
in conjunction with the City’s periodic Evaluation and Appraisal Report.

SECTION THREE: The Growth Management Plan is hereby amended to create
Future Land Use Subarea Policy S.12.8 which boundaries shall be as set forth in Exhibit
“1” and which shall read as follows:

Policy S.12.8

Kaley Future Land Use Overlay. The Kaley Future Land Use Overlay is intended
to encourage redevelopment, create a highly visible and memorable node of activity and
establish the intersection of Division Avenue and Kaley Street as the western gateway to
the South Downtown Subarea. To achieve these objectives, the City may adopt a Special
Plan Overlay zoning designation (the “Kaley Zoning Overlay”). The Kaley Zoning
Overlay may allow a maximum density of 100 dwelling units per acre and/or a maximum
intensity of 2.0 F.A.R. within Subarea S.12.8 when approved as a density and/or intensity
bonus. Density and intensity bonuses shall be reviewed and approved in accordance with
the regulations provided in the Land Development Code for Bonuses in Office, Mixed
Use Corridor and Activity Center Districts. The Kaley Zoning Overlay may also allow
residential, hotel, eating and drinking, office and retail uses throughout Subarea S.12.8
when approved as part of a Planned Development, subject to the following additional
criteria:

(a) Where appropriate, building sites shall accommodate mass transit;
(b) Development shall connect to a master stormwater system, if available; and
(c) Building and site design shall be generally consistent with the principles and practices of the Leadership in Energy and Environmental Design (LEED) Green Building Rating System developed by the U.S. Green Building Council or a similar rating system approved by the City.

SECTION FOUR: The Growth Management Plan is hereby amended to create Future Land Use Subarea Policy S.12.9 which boundaries shall be as set forth in Exhibit “1,” and which shall read as follows:

Policies S.12.9

Transit 1 Future Land Use Overlay. The Transit 1 Future Land Use Overlay is intended to encourage redevelopment, support existing development and promote a complementary mixture of transit-supportive uses at higher densities and intensities within walking distance of the Amtrak/Orlando Health transit station. To achieve these objectives, the City may adopt a Special Plan Overlay zoning designation (the “Transit 1 Zoning Overlay”). The Transit 1 Zoning Overlay may allow a maximum density of 100 dwelling units per acre and/or a maximum intensity of 1.6 F.A.R. within Subarea S.12.9 when approved as a density and/or intensity bonus. The Transit 1 Zoning Overlay may also allow residential, hotel, eating and drinking, office and retail uses throughout Subarea S.12.9 when approved as part of a Planned Development, subject to the following additional criteria:

(a) Where appropriate, building sites shall accommodate mass transit;
(b) Development shall connect to a master stormwater system, if available; and
(c) Building and site design shall be generally consistent with the principles and practices of the Leadership in Energy and Environmental Design (LEED) Green
SECTION FIVE: The Growth Management Plan is hereby amended to create Future Land Use Subarea Policy S.12.9.1 which boundaries shall be as set forth in Exhibit “1,” and which shall read as follows:

**Transit 2 Future Land Use Overlay.** The Transit 2 Future Land Use Overlay is intended to further encourage the intensification of uses in close proximity to the Amtrak/Orlando Health transit station. To achieve this objective, the City may adopt a Special Plan Overlay zoning designation (the “Transit 2 Zoning Overlay”). The Transit 2 Zoning Overlay may allow a maximum density of 100 dwelling units per acre and/or a maximum intensity of 3.0 F.A.R. within Subarea S.12.9.1 when approved as a density and/or intensity bonus. Density and intensity bonuses shall be reviewed and approved in accordance with the regulations provided in the Land Development Code for Bonuses in Office, Mixed Use Corridor and Activity Center Districts. The Transit 2 Zoning Overlay may also allow residential, hotel, eating and drinking, office and retail uses throughout Subarea S.12.9.1 when approved as part of a Planned Development, subject to the following additional criteria:

(a) Where appropriate, building sites shall accommodate mass transit;

(b) Development shall connect to a master stormwater system, if available; and

(c) Building and site design shall be generally consistent with the principles and practices of the Leadership in Energy and Environmental Design (LEED) Green Building Rating System developed by the U.S. Green Building Council or a similar rating system approved by the City.
SECTION SIX: Future Land Use Element Subarea Policy S.15.12 of the Growth Management Plan is hereby amended to read as follows:

Policy S.15.12

To ensure compatibility with adjacent residential neighborhoods and public park land, the allowable zoning district within the boundary of this Subarea policy shall be PD (Planned Development). Buildings which abut existing residential areas or planned public parks or trails shall incorporate architectural relief and transparency and shall be subject to Appearance Review. The subject property shall be limited to a maximum of 2,855 daily trips and 265 PM peak hour trips, calculated according to the Institute of Transportation Engineers Trip Generation, 7th edition. A traffic study shall also be submitted as part of the PD zoning application. A transportation access mitigation plan shall be developed for the subject property based upon the results of the traffic study. The terms of the PD shall be based upon one of the following development scenarios:

1. Preferred Development Scenario

   (a) At least one additional public street access shall be provided between this area and Woodcock Road. The PD shall require construction (or proportionate share payment) of the mitigation improvements identified in the traffic study and mitigation plan.

   (b) Allowable uses, densities, intensities and building heights within the area designated Office Medium Intensity shall be subject to the standards of the O-2 zoning district.
(c) Allowable uses, densities, intensities, and building heights within the area designated as Office Low Intensity shall be subject to the standards of the O-1 zoning district.

(d) The PD shall incorporate a mixture of uses, may allow for Eating & Drinking and Light Retailing as accessory uses within a residential or mixed office/residential development including mixed use buildings.

(e) The PD shall include streets and blocks which allow for growth and change of various uses and building design over time without requiring complete development. Principal and accessory structures shall be configured to allow access and visibility for vehicles, safe and convenient paths for pedestrians, and opportunities for small plazas, parks, or distinctive buildings to enhance the unique character of the development.

(f) A safe, continuous pedestrian connection shall be provided between major uses. Buildings and building entrances shall be oriented toward streets, parks, or plazas to provide easy pedestrian connections.

(g) Buildings shall have varied and articulated facades to provide visual interest.

(h) Surface parking shall generally be located to the rear of buildings, and in parking courts located within the interior of blocks. On-street parking is also encouraged.

(i) The PD shall include exterior lighting and fencing standards.

2. Alternate Development Scenario

If no additional public street access is provided between this area and Woodcock Road, the following standards shall apply:
(a) Allowable uses shall be limited to wholesale/distribution and warehouse uses, office uses, public benefit uses, and similar uses.

(b) Buffers along property lines that abut residential development or the planned public park/trail shall be greater than that required by Chapter 60, Part 2F of the Land Development Code.

(c) Semi-trailer delivery access, semi-trailer loading docks, storage facilities, and emergency generators shall be located to minimize impacts on existing residential development or planned public parks/trails.

(d) Semi-trailer deliveries to and from the property shall be limited to the hours between 6:00 a.m. and 8:00 p.m.

(e) Building heights within the area designated Office Low Intensity shall comply with the O-1 zoning district.

(f) Building heights within the area designated Office Medium Intensity shall not exceed 50 feet.

(g) The maximum intensity for the wholesale/distribution, warehouse and public benefit uses shall be 0.30 FAR. The maximum intensity for office uses shall be 0.20 FAR.

(h) Street access shall not be permitted from the west or north side of the property.

(i) Access to the south side of the property shall be limited to Warehouse Road only.

(j) The PD shall include exterior lighting and fencing standards.

SECTION SEVEN: The Future Land Use Map of the Growth Management Plan is hereby amended to change the Future Land Use designation for property described in

attached Exhibit “2” from Public/Recreational/Institutional to Industrial and Resource Protection Overlay, as depicted in attached Exhibit “3.”

SECTION EIGHT: The Growth Management Plan is hereby amended to create Future Land Use Subarea Policy S.33.5 which boundaries shall be as set forth in Exhibit “3,” and which shall read as follows:

Because this area is the location of a former military landfill, any development proposals shall be supported by engineering and environmental studies demonstrating the suitability of areas affected by the former landfill for the uses proposed. Planned Development (PD) zoning shall be required in order to address appropriate locations for development.

The boundaries of environmentally sensitive areas shall be determined through the Planned Development (PD) or Conservation (C) rezoning process, based upon appropriate environmental studies and analysis. Development within identified environmentally sensitive areas shall be consistent with Conservation Policies 1.4.1 through 1.4.6 and coordinated with all appropriate government agencies to minimize adverse environmental impacts.

SECTION NINE: The Future Land Use Map of the Growth Management Plan is hereby amended to change the future land use designation for property described in attached Exhibit “4” from Industrial to Urban Activity Center and Conservation, as depicted in attached Exhibit “5”.

SECTION TEN: The Future Land Use Map of the Growth Management Plan is hereby amended to apply the Future Land Use overlay designation of Transit 1 Overlay to the property depicted in attached Exhibit “6.”
SECTION ELEVEN: The Future Land Use Map of the Growth Management Plan is hereby amended to apply the Future Land Use overlay designation of Transit 2 Overlay to the property depicted in attached Exhibit “7.”

SECTION TWELVE: The Future Land Use Map of the Growth Management Plan is hereby amended to apply the Future Land Use overlay designation of Kaley Overlay to the property depicted in attached Exhibit “8.”

SECTION THIRTEEN: The City Clerk and the City Planning Official are hereby authorized and directed to amend the Growth Management Plan and Official Future Land Use Map in accordance with the provisions of this Ordinance.

SECTION FOURTEEN: If any section, subsection, clause, phrase, or portion of this ordinance is for any reason held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, independent provision and such holding shall not affect the validity of the remaining portion hereto.

SECTION FIFTEEN: The effective date of these plan amendments shall be thirty-one (31) days from the adoption of this ordinance unless the amendments are challenged pursuant to Section 163.3187(3), Florida Statutes, in which case these amendments shall not become effective until the State of Florida Department of Community Affairs or Administration Commission issues a final order finding the amendment in compliance and in accordance with Section 163.3184, Florida Statutes. No development orders, development permits, or land uses dependent on these amendments may be issued or commence before this ordinance has become effective. If the Administration Commission issues a final order of noncompliance, these amendments may nevertheless be made effective by adoption of a resolution affirming its effective
status, a copy of which shall be sent to the Department of Community Affairs, Bureau of
Local Planning, 2555 Shumard Oak Boulevard, Tallahassee, Florida 32399-2100.
