The project description that I am submitting is an expansion of the present childcare facility adding 18 children to the childcare and the addition of a 10 student private school inside of that facility at 1215 mercy Dr. Orlando FL 32808.

We are one services LLC early childhood Academy (Childcare facility)
- Will operate within the hours of 6:30 AM to 12:00 am (optional) Monday - Friday
- The total amount of children that will be in the childcare facility will be 48. They will be various ages ranging from 0 to 12 years old.
- Pick up and drop off will be at the front door of the existing building in the designated area (identified by \_\_\_ on the survey) and children will be escorted into and out of facility by Guardian or staff member.
- Children will be signed in and out by guardian or authorize representative under staff supervision.
- Once signed in children will engage in learning activities at the scheduled times.
- Meals and snacks will be prepared by staff and distributed According to schedule.
- The children will follow the designated schedule for recreational and rest (nap) periods.
- For the remainder of the day the children will engage in various learning and recreational activities until they are signed out and return to their guardians’ custody.

We are one services LLC early childhood Academy (Private School)
- Will operate during the hours of 8:30am – 2:30pm Monday thru Friday.
- The private school will have a total of 10 students enrolled, grades ranging from K -3rd grade.
- The students will be received and discharged from the designated area (identified by \_\_\_ on the survey) of that parking lot by staff member.
- At that time the students will be escorted to the section of the facility designated for private school and began to explore their educational curriculum design for that day (age specific), in accordance with the guidelines set by the Florida Department of education.
- Students will have lunch and snack prepared and distributed according to the schedule.
- Students will also have segment of the day dedicated to physical education and recreational activities.
- At the end of the day students will be escorted to the designated receiving and discharge area to be returned to their guardians’ custody.

The existing building is over 2700 square feet the total of children from the childcare will be 48 the total number of students for the private school will be 10. Which totals out to be 58 children.
- Approximately 1523.92 square feet will be allocated to the childcare facility. Indicated by \_\_\_ on the floor plan in various rooms within the facility.
- Approximately 432 square feet will be allotted to the private school classroom identified by \_\_\_ on the floor plan.
• There are two separate outdoor recreation areas. (Indicated by on the survey illustration). They are surrounded and separated from each other by a chain linked fence, so the older children will not co-mingle with the younger children during outdoor recreation.

• All other common usage areas are typed in, to identify their location.

I am hoping that this detailed project description that I am submitting has conveyed enough relevant information and will meet the requirements for approval for this project. If there are any other questions or concerns, please advise.

Sincerely,

Marcus Williams
